PROFILE

UX/UI designer and front-end developer with agency experience since 2019 across edtech, e-commerce, fintech, construction, and nonprofit brands. A background in development means my designs are beautiful, realistic, and easy to hand off — from user flows to high-fidelity Figma prototypes to production builds on Shopify, BigCommerce, and WordPress.

EXPERIENCE

UX & UI Designer / Front-End Developer

Jan 2019 – Present

LimeLight Marketing · Pittsburg, KS (Remote)

- Lead UX/UI design for client websites and web apps across edtech, e-commerce, fintech, construction, and nonprofit sectors — from user flows and wireframes to high-fidelity Figma prototypes.
- Develop custom WordPress sites and Shopify and BigCommerce storefronts, bridging design intent and production.
- Build working client relationships and deliver on tight deadlines across many brand voices at once.
- Use AI-assisted tools (v0, Claude Code) to prototype faster and communicate ideas clearly.
- Organized summer coding camps for children.

SELECTED CLIENTS Catholic Charities KC–SJ · Pitsco LUMA · Sunnyland Farms · Smokin' Keg · KE&G · MSG Payment Systems · Vintage Labs

Web Editor

Oct 2019 – May 2021

Pittsburg State University · Pittsburg, KS

- Designed new pages and maintained existing pages across the university website.
- Trained university staff to use the CMS.
- Built survey and application forms and email marketing templates.

Printing Services / Designer

Aug 2017 – Oct 2019

Printing and Design Services · Pittsburg, KS

- Designed print products including banners, flyers, invitations, and booklets, and ran large-format printing.
- Received and processed print orders on tight deadlines.
