PROFILE

UX/UI designer and front-end developer with five years of agency experience across edtech, e-commerce, fintech, construction, and nonprofit brands. A background in development means my designs are beautiful, realistic, and easy to hand off — from user flows to high-fidelity Figma prototypes to production builds on Shopify, BigCommerce, and WordPress.

EXPERIENCE

Job Title
20XX – Present

Agency Name, City, State

- Lead UX/UI design for client websites and web apps across edtech, e-commerce, fintech, construction, and nonprofit sectors.
- Design and build front ends on Shopify, BigCommerce, and WordPress/Elementor, bridging design intent and development.
- Take projects from user flows and wireframes through high-fidelity Figma prototypes and developer hand-off.
- Use AI-assisted tools (v0, Claude Code) to prototype faster and communicate ideas clearly to clients and developers.

SELECTED PROJECTS

Catholic Charities KC–SJ NONPROFIT · WORDPRESS	UX/UI design for a social-services site helping people in crisis find the right program fast, with clear paths for donors and volunteers.
LUMA EDTECH · WEB APP	UX/UI for Pitsco's classroom coding-robot app — block and Python coding for grades 4–6 on shared devices.
Sunnyland Farms E-COMMERCE · BIGCOMMERCE	Design and build for a large, seasonal gift catalog, keeping checkout simple during holiday peaks.
Smokin' Keg E-COMMERCE · SHOPIFY	Design and front-end development for a single-product, story-driven storefront.
KE&G CONSTRUCTION · WORDPRESS	Corporate site speaking to both clients and job seekers, showcasing completed project work.
MSG Payment Systems FINTECH · WORDPRESS	Design and build routing three B2B audiences to the right solution without jargon.
Vintage Labs E-COMMERCE · SHOPIFY	Design and front-end development for a calm, clinical supplement storefront.
